Payal Bhujwala

Graduate Student in the Master's of Human Computer Interaction
program at Carnegie Mellon University
Greater Pittsburgh Area

Summary

I aspire to create and work on unique design problems and devise
solutions that redesign people and their everyday interactions. I want
to design solutions that are universally accessible and innovative that
helps create a significant change.

Experience

**Human-Computer Interaction Institute - Carnegie Mellon University -
School of Computer Science**
Design Lead
February 2020 - Present (4 months)
Greater Pittsburgh Area

Working on a research project in the OH! Lab under Jessica Hammer.
Managed by Adela Kapuscinska and Vicky Lin, the team is currently iterating
on an application that generates physical activities and games for young girls
to make them more active. I lead the design team in creating more games,
conducting user testing and play testing sessions, and generating insights
for the next iteration of the application. The application will be deployed on
Android and iOS stores in June.

The Pittsburgh Foundation
